Hospital Discharge Day Management 99238

Medicare does not allow billing of consult charges. Per CPT use 99221 series for initial physician services provided to the patient in the hospital setting. If visit does not meet requirements of 99221 series, then use 99211 series.

CPT Definition of consult: A third party mandated consultation. 99241 series includes all consultations provided in the office setting, ambulatory facility, rest home, emergency department, patient's home, and hospital observation. Requires documentation of request for consult. One consultation per consultant. Requires provision of written report of findings from the consultant to the referring physician.
